

## SCARP PLAN UPDATE

The Township is proceeding with the SCARP plan and will soon begin the basement inspection phase of the program.

The inspections will begin in October 2010: You will receive a letter from the Township prior to the inspection of your property. Township personnel will go "door-to-door" during normal work hours to inspect those properties for which the property owners are home. In the event that you are not home at the time of the inspection, a door hanger will be left requesting you to call the township to schedule a mutually-agreeable time for the inspection.

The purpose of the inspections is to identify sources of leakage into the sanitary sewer.

The Township looks forward to your cooperation in addressing inflow problems in the sanitary sewer system which the Township is required to do in accordance with directives from DEP and EPA.
