SCHEDULE "D" OTHER PERMIT FEES

Onsite Sewage Disposal Permit Fees

1. TEST PIT PROFILE ANALYSIS (PROCEDURE FOR PROBE)

- a. Permit Application (Single Lot) - The property owner or his representative will be required to set up an appointment with the Sewage Enforcement Officer (SEO) to arrange for evaluation of the pit, collection of necessary site data, taking of necessary slope readings and notation of all soil mapping information. The owner is required to supply the necessary excavation and any information pertinent to the application. At this time, the SEO will try to answer any questions, which the owner may have in reference to his system planning or permit procedure.

Fee for this service is \$125.00 per EDU; quantity evaluation \$125.00 per perc test site, i.e. one for the primary site, and one for the secondary if applicable.

- b. Subdivision Planning - The developer is required to supply a drawing of the proposed subdivision delineating proposed subsurface disposal areas (drawn to scale) for each lot and shall have sufficient physical markers to locate these areas in the field according to their individual location on the subdivision plan. At this point, the developer will contact the Township SEO to set up an appointment to arrange for the SEO's evaluation or observation of the pit evaluation. The developer may retain a soil scientist, or other qualified individual(s), to evaluate individual probes. This is typically performed for site suitability and planning module preparation. The developer must provide appropriate oversight and all necessary equipment and labor.

Fee for this service is \$120.00 per pit observation; quantity observation is \$120.00 per test site, i.e. one for the primary and one for the secondary site.

2. PERCOLATION TEST (LIMITED TO SIX HOLES)

- a. Percolation Test (Complete) - If the site is found suitable under Step 1, arrangements may be made for the performance of percolation tests. In the complete test, the SEO will provide the necessary labor, equipment and materials to properly conduct the test. If test results are unsuitable, the permit applicant or developer would be notified and further testing or incorporation of the proposed lot into surrounding suitable proposed lots would be required.

Fee for this service is \$490.00.

- b. Percolation Test (Partial) - Same as Item 2.a, except that permit applicant or developer would be required to dig the six holes and prepare them properly. The SEO would inspect the presoak and conduct the actual tests with the developer providing the necessary labor, equipment and materials.

Fee for this service is \$395.00 per test.

- c. Observation of Percolation Test - If the applicant or developer should desire to retain another qualified individual(s) to perform the percolation test and presoak, this option would apply. Prior to the performance of testing, the SEO shall be notified of who will perform the test. If this person(s) is qualified to perform percolation tests, scheduling may proceed. The SEO would then observe and inspect the pre-soak, hole depth and test preparation plus witness and verify test readings.

Fee for this service is \$340.00 per test; quantity observation \$340.00 per lot, i.e. 2 perc sites, includes both the primary and the secondary sites.

3. PERMIT APPLICATION REVIEW, PERMIT ISSUANCE/DENIAL - After the required testing has been analyzed and an application has been submitted, the SEO will process and notify the applicant of permit approval or denial. Please note that the system design is the responsibility of the applicant and that an incomplete submission will result in appropriate action.

SCHEDULE "D" OTHER PERMIT FEES

Onsite Sewage Disposal Permit Fees

Should the permit be denied per the Department of Environmental Protection's Rules and Regulations, the reasons for denial will be noted and the applicant's right to appeal will be brought to his attention. Copies of all permit correspondence and data will be provided to the applicant and to the Township for their use.

Fee for this service is \$190.00; additional review time at \$94.00 per hour.

- 3a. MINOR REPAIR – Repairs that do not include replacement of the treatment tank or absorption area, do require a permit under the Sewage Facilities Act. Installation or repair of building sewers, transmission lines, and other sewerage need to be monitored to assure compliance with slope requirements, as well as no adverse impact on the environment. In these circumstances a report will be generated supplying the appropriate information, i.e. Owner, Contractor, type of repair, etc. This information shall be provided for Township Records.

Fee for this service is \$275.00.

- 3b. REPAIR – Repairs that entail repair replacement, enlargement of a treatment or retention tank, or the repair, replacement, disturbance, modification or enlargement of a soil absorption area or spray field, or the soil within or under the absorption area or spray field require a permit as described in No. 3 above.

Fee for this service is \$190.00; additional review time at \$94.00 per hour.

4. PRE-CONSTRUCTION INSPECTION/MEETING - After receipt of a sewage permit, and prior to any lot earth disturbance, the SEO will inspect the site to reaffirm that the designated area for the on-lot system has not been disturbed since earlier testing. During this inspection, the system installer and applicant will be required to meet with the SEO at the site to review Township guidelines and construction procedures.

Fee for this service is \$200.00.

5. FINAL INSPECTIONS (STANDARD SYSTEM) - At the time of system installation and prior to approval to cover, necessary field inspections shall be performed. System installation, grades and distances shall be checked to the standards set forth by DEP and the results of that inspection retained on file.

Fee for this service is \$200.00.

6. FINAL INSPECTION (SAND MOUND) - At the time of system installation and prior to final approval, necessary field inspections shall be performed. Inspections shall be performed at the following phases of construction:

- a) Surface Preparation
- b) Sand Placement
- c) Final Inspection

System installation, grades and distances shall be checked to standards set forth by Department of Environmental Protection. Results of inspections will be retained on file.

Fee for this service is \$380.00.

7. VALIDITY OF PERMIT (RENEWAL) - If the system is not built within three (3) years from the date of permit issuance, or if the property is transferred within such time, renewal is applicable. The renewal is subject to:

- a) Review of available test data and previous permit.
- b) Verify prior testing as outlined in Item 11 below.

Fee for this service is \$275.00 per permit renewal.

SCHEDULE "D" OTHER PERMIT FEES

Onsite Sewage Disposal Permit Fees

8. SYSTEM MALFUNCTION - The SEO will investigate the malfunction, establish available data, and coordinate required testing procedures. Any related activities including, but not limited to, dye testing, water sampling and lab test fees, are also included.

Due to variability of malfunctions, the fee will be accrued hourly.

Fee is \$94.00 per hour.

9. ALTERNATE OR EXPERIMENTAL SYSTEM REVIEW - The SEO shall review and prepare a "Report of Findings" commenting on the applicant's submission.

Fee for this service is \$94.00 per hour.

10. VERIFY PRIOR TESTING - This pertains to an applicant whose lot was tested and found acceptable for on-lot sewage disposal, more than three (3) years ago. The SEO will inspect the site to reaffirm that the designated area for the on-lot system has not been disturbed since earlier testing.

This verification is also required under PA Code Title 25 § 72.26(b), when testing was performed or observed by a previous Sewage Enforcement Officer.

If the area shows signs of having been disturbed, the applicant will be required to follow the procedure outlined in Items 1 and 2; if not disturbed, the applicant would advance to Item 3.

Fee for this service is \$200.00 per inspection.

Notes:

1. This fee schedule is subject to Upper Macungie Township's Escrow and Reimbursement Policy for Subdivision/Land Development Applications.
2. Applicant responsibility is not limited to the amount of the escrow noted on the above chart.
3. Application Fees are non-refundable.

* After the initial Planning Commission meeting at which a plan is reviewed, a Resubmission Fee is required to be submitted along with each subsequent formal submission of plans and/or supporting materials before the plan shall be reviewed by staff for a subsequent Planning Commission or Board of Supervisors meeting. The Resubmission Fee is non-refundable. The applicant may postpone the plan's review at any Planning Commission or Board of Supervisors meeting prior to the advertisement of that plan for the particular meeting without penalty. Once the plan is advertised to be reviewed at a particular meeting, a new Resubmission Fee shall be required for a formal review at any subsequent meeting whether or not the plan was discussed at the advertised meeting.
