Join Upper Macungie Township, Lehigh County Conservation District, and Lehigh County Authority for an instructional rain barrel workshop and information about how you can reduce nonpoint source pollution.

Space and supplies are limited so register today!

Saturday April 21, 2018 – Two half-hour sessions are available! Sessions include instruction and a fully-assembled rain barrel to confirmed participants.

Session 1: 09:00 a.m. - 09:30 a.m.

Session 2: 10:00 a.m. - 10:30 a.m.

TO REGISTER: Contact Trissina Trusdell at trissinatrusdell@lehighcountyauthority.org with the subject “Rain Barrel Workshop” or call 610-398-2503. Please indicate name, address, contact number, email address and the session you would like to attend.

As an interested participant in this workshop, please be aware of the following:

- The rain barrel is provided to collect rain water from down spouts from your roof. The water is not safe for drinking water and should be used only for outdoor uses such as gardening, lawn watering, or car-washing.
- The 55-gallon rain barrel must be properly installed and secured to prevent tipping or injury. This is your responsibility!
- Guidelines will be provided to help you prevent mosquito growth in or around your rain barrel system. However, it is your responsibility to maintain the system at your property.
- Rain barrel and starter-kit materials are being provided to you at no cost, and results are not guaranteed. We will provide you with instructions for installation at your home, but you are responsible for obtaining any additional supplies required for the installation of the system at your property. In addition, you are responsible for the actual installation, function, and ongoing safe operation of your rain barrel system.
- A vehicle large enough to transport the 55-gallon barrel, protective covering for the vehicle interior must be brought to the workshop. Delivery of the system will not be available.
