SCHEDULE "K" SANITARY SEWER FEES

Flat Rates for Dwelling Units, Commercial Establishments, and Institutional Establishments

Sewer rentals or charges for sanitary sewage discharged into the sewer system from any improved property constituting a dwelling unit, a commercial establishment or an institutional establishment, and situated in Service Areas A, B and C, unless otherwise determined by the Township and except where water meters are available for the improved property, shall be on a flat rate basis for the following classifications at the following rates per quarter-annum:

Classification	Rate Per Quarter Annum
(1) Each dwelling unit	\$89.00
(2) Commercial establishments:	
(a) Each social hall	\$91.52
(b) Each church	\$91.52
(c) Each retail gasoline station	\$137.31
(d) Each motel, hotel or other establishment providing overnight facilities and each nursing or convalescent home that has private toilet or washing facilities in or connected to a room	\$45.79
(e) Each motel, hotel or other establishment providing overnight facilities and each nursing or convalescent home that does not have private toilet or washing facilities in or connected to a room	\$30.51
(f) Each restaurant, barroom or other commercial establishment which regularly dispenses food or beverages for consumption on the premises. This sewer rental or charge shall be computed on the average daily number of employees for the quarter-annum immediately preceding the date of the bill. Any owner shall be considered an employee for the purpose of computing sewer rentals.	\$6.48 per quarter-annum per employee, plus \$8.09 per quarter-annum for each seat regularly intended for customer use, subject to a minimum charge of \$161.84 per quarter
(g) Each retail store, business or professional office, barbershop or beauty shop (not operated in a home by the homeowner or tenant of the home)	\$91.52
(h) All other commercial establishments not separately classified under 1A(2)(a), (b), (c), (d), (e), (f) or (g) above and not constituting a combination dwelling unit and commercial establishment in 1A(3) below. This sewer rental or charge shall	\$6.48 per quarter-annum per employee, plus \$64.59 per quarter-annum for each public rest room, subject to a minimum charge of \$121.06 per quarter

SCHEDULE "K" SANITARY SEWER FEES

be computed on the basis of the average daily number of employees for the quarter-annum immediately preceding the date of the bill. An owner shall be considered an employee for purposes of computing sewer rentals.

- (3) Combination dwelling units and commercial establishments:

Combination dwelling unit and commercial establishment located in one structure and owned or occupied and operated by the same person; provided, however, that this Subsection 1A(3) shall not be applicable in those cases where the commercial establishment shall constitute a restaurant, barroom or other commercial establishment which regularly dispenses food and/or beverage for consumption on the premises. \$137.31

- (4) Institutional establishments:

(a) Each public or private school per full-time pupil, based upon the daily average number of full-time pupils enrolled on days when the school was in session during the immediately preceding full school term. Teachers and employees shall be classified and treated as pupils for purposes of this Section. \$5.45

(b) Each public or private school per part-time pupil, based upon the daily average number of part-time pupils enrolled on days when the school was in session during the immediately preceding full school term. Teachers and employees shall be classified and treated as pupils for purposes of this Section. \$2.73

Metered Rate Schedule

- (1) In either of the foregoing cases, such sewer rentals or charges shall be computed in accordance with the following metered charge per quarter-annum or, regardless of volume of water usage or of volume of actual metered waste discharge, a minimum charge of \$105.09 per quarter-annum or \$8.39 per employee, based upon the daily average number of employees for the quarter-annum immediately preceding the quarter-annum for which the bill is rendered, whichever is larger.
- (2) Metered rate schedule applicable to industrial, commercial, and institutional establishments: \$105.09 per quarter for first 21,541 gallons and \$4.90 per 1,000 gallons for all gallons in excess of the first 21,541 gallons.

SCHEDULE "K" SANITARY SEWER FEES

Metered rates for residential dwelling units.

- (1) In either of the foregoing cases, such sewer rentals or charges shall be computed in accordance with the following metered charge per quarter-annum or regardless of volume of water usage or of volume of actual metered waste discharge, a minimum of \$89.00 per quarter-annum.
- (2) Metered rate schedule applicable to residential dwelling units: \$89.00 per quarter for the first 21,466 gallons and \$4.18 per thousand gallons for all gallons in excess of the first 21,466 gallons.

Extra Strength Industrial Wastes

Extra strength industrial wastes subject to surcharges shall be calculated on the basis of the following rates:

- (1) BOD: \$0.32 per pound.
- (2) TSS (total suspended solids): \$0.29 per pound.
- (3) TKN: \$0.41 per pound.
- (4) FOG (fats, oils and grease): \$0.52 per pound.

Imposition of Allocation Reserve Charge

The Township imposes a charge on all customers maintaining sanitary sewer capacity which is in excess of their actual metered flow of sewage ("reserve allocation"). Said customers shall be charged with a reserve allocation fee of \$0.95 per 1,000 gallons on the unused allocation. Said charge shall be billed on a quarterly basis.

Tapping Fee

\$5.81/GPD per ordinance

Outstanding Balance Interest and Penalty Assessments

For those accounts with balances that are past due by thirty (30) days, an annual interest rate of twelve percent (12%) shall be charged (1.0% per month.) Additionally, on a quarterly basis, a five percent (5.0%) penalty will be charged if payment is not received by the due date.

SCHEDULE "L" ONSITE SEWAGE DISPOSAL FEES

1. TEST PIT PROFILE ANALYSIS (PROCEDURE FOR PROBE)

- a. **Permit Application (Single Lot)** – The property owner or his representative will be required to set up an appointment with the Sewage Enforcement Officer (SEO) to arrange for evaluation of the pit, collection of necessary site data, taking of necessary slope readings and notation of all soil mapping information. The owner is required to supply the necessary excavation and any information pertinent to the application. At this time, the SEO will try to answer any questions, which the owner may have in reference to his system planning or permit procedure.

Fee for this service is \$125.00 per EDU; quantity evaluation \$125.00 per perc test site, i.e. one for the primary site, and one for the secondary if applicable.

- b. **Subdivision Planning** – The developer is required to supply a drawing of the proposed subdivision delineating proposed subsurface disposal areas (drawn to scale) for each lot and shall have sufficient physical markers to locate these areas in the field according to their individual location on the subdivision plan. At this point, the developer will contact the Township SEO to set up an appointment to arrange for the SEO's evaluation or observation of the pit evaluation. The developer may retain a soil scientist, or other qualified individual(s), to evaluate individual probes. This is typically performed for site suitability and planning module preparation. The developer must provide appropriate oversight and all necessary equipment and labor.

Fee for this service is \$125.00 per pit observation; quantity observation is \$125.00 per test site, i.e. one for the primary and one for the secondary site.

2. PERCOLATION TEST (LIMITED TO SIX HOLES)

- a. **Percolation Test (Complete)** – If the site is found suitable under Step 1, arrangements may be made for the performance of percolation tests. In the complete test, the SEO will provide the necessary labor, equipment and materials to properly conduct the test. If test results are unsuitable, the permit applicant or developer would be notified and further testing or incorporation of the proposed lot into surrounding suitable proposed lots would be required.

Fee for this service is \$600.00.

- b. **Percolation Test (Partial)** – Same as Item 2.a, except that permit applicant or developer would be required to dig the six holes and prepare them properly. The SEO would inspect the presoak and conduct the actual tests with the developer providing the necessary labor, equipment and materials.

Fee for this service is \$425.00 per test.

- c. **Observation of Percolation Test** – If the applicant or developer should desire to retain another qualified individual(s) to perform the percolation test and presoak, this option would apply. Prior to the performance of testing, the SEO shall be notified of who will perform the test. If this person(s) is qualified to perform percolation tests, scheduling may proceed. The SEO would then observe and inspect the pre-soak, hole depth and test preparation plus witness and verify test readings.

Fee for this service is \$375.00 per test; quantity observation \$375 per lot, i.e. 2 perc sites, includes both the primary and the secondary sites.

3. PERMIT APPLICATION REVIEW, PERMIT ISSUANCE/DENIAL – After the required testing has been analyzed and an application has been submitted, the SEO will process and notify the applicant of permit

SCHEDULE "L" ONSITE SEWAGE DISPOSAL FEES

approval or denial. Please note that the system design is the responsibility of the applicant and that an incomplete submission will result in appropriate action.

Should the permit be denied per the Department of Environmental Protection's Rules and Regulations, the reasons for denial will be noted and the applicant's right to appeal will be brought to his attention. Copies of all permit correspondence and data will be provided to the applicant and to the Township for their use.

Fee for this service is \$200.00; additional review time at \$107.50 per hour.

- 3a. MINOR REPAIR** – Repairs that do not include replacement of the treatment tank or absorption area, do require a permit under the Sewage Facilities Act. Installation or repair of building sewers, transmission lines, and other sewerage need to be monitored to assure compliance with slope requirements, as well as no adverse impact on the environment. In these circumstances a report will be generated supplying the appropriate information, i.e. Owner, Contractor, type of repair, etc. This information shall be provided for Township Records.

Fee for this service is \$275.00.

- 3b. REPAIR** – Repairs that entail repair replacement, enlargement of a treatment or retention tank, or the repair, replacement, disturbance, modification or enlargement of a soil absorption area or spray field, or the soil within or under the absorption area or spray field require a permit as described in No. 3 above.

Fee for this service is \$325.00; additional review time at \$107.50 per hour.

- 4. PRE-CONSTRUCTION INSPECTION/MEETING** – After receipt of a sewage permit, and prior to any lot earth disturbance, the SEO will inspect the site to reaffirm that the designated area for the on-lot system has not been disturbed since earlier testing. During this inspection, the system installer and applicant will be required to meet with the SEO at the site to review Township guidelines and construction procedures.

Fee for this service is \$210.00.

- 5. FINAL INSPECTIONS (STANDARD SYSTEM)** – At the time of system installation and prior to approval to cover, necessary field inspections shall be performed. System installation, grades and distances shall be checked to the standards set forth by DEP and the results of that inspection retained on file.

Fee for this service is \$200.00.

- 6. FINAL INSPECTION (SAND MOUND)** – At the time of system installation and prior to final approval, necessary field inspections shall be performed. Inspections shall be performed at the following phases of construction:

- a) Surface Preparation
- b) Sand Placement
- c) Final Inspection

System installation, grades and distances shall be checked to standards set forth by Department of Environmental Protection. Results of inspections will be retained on file.

Fee for this service is \$415.00.

SCHEDULE "L" ONSITE SEWAGE DISPOSAL FEES

7. **VALIDITY OF PERMIT (RENEWAL)** – If the system is not built within three (3) years from the date of permit issuance, or if the property is transferred within such time, renewal is applicable. The renewal is subject to:

- a) Review of available test data and previous permit.
- b) Verify prior testing as outlined in Item 11 below.

Fee for this service is \$290.00 per permit renewal.

8. **SYSTEM MALFUNCTION** – The SEO will investigate the malfunction, establish available data, and coordinate required testing procedures. Any related activities including, but not limited to, dye testing, water sampling and lab test fees, are also included.

Due to variability of malfunctions, the fee will be accrued hourly.

Fee is \$107.50 per hour.

9. **ALTERNATE OR EXPERIMENTAL SYSTEM REVIEW** – The SEO shall review and prepare a "Report of Findings" commenting on the applicant's submission.

Fee for this service is \$107.50 per hour.

10. **VERIFY PRIOR TESTING** – This pertains to an applicant whose lot was tested and found acceptable for on-lot sewage disposal, more than three (3) years ago. The SEO will inspect the site to reaffirm that the designated area for the on-lot system has not been disturbed since earlier testing.

This verification is also required under PA Code Title 25 § 72.26(b), when testing was performed or observed by a previous Sewage Enforcement Officer.

If the area shows signs of having been disturbed, the applicant will be required to follow the procedure outlined in Items 1 and 2; if not disturbed, the applicant would advance to Item 3.

Fee for this service is \$220.00 per inspection.
